

Datamine Research Platform – Internet research resources, best practices and search parameters are built into a custom built research tool that allows Owners and their Researchers to access web based directories and databases to surface contact information for healthcare practitioners and hiring authorities. It contains a state-to-state licensure portal to locate contact information for registered healthcare and healthcare professionals. Lifetime access is provided. Datamine Research Platform is supplied by Strategic Research Network.

 **Website and email** – Owner/Operators receive domain registration, their choice of template Healthcare Recruiting and Medical Staffing websites, as well as website and email hosting services from a third party vendor, AccuNet. No cost for first year, \$30 per month after that paid directly to vendor for website and email hosting. Owner/Operator has the option of moving hosting services.

Training and Support Portal – Password protected website for Owner/Operator training and support needs, with access to regularly updated training materials, manuals, agreements, forms and scripts that are used in the operation of an Owner/Operator's business. Available 24 hours a day, the Portal includes a Directory of Owner/Operators, and access to the Datamine Research Platform and the Global Database.

Broadlook Research Package – the following four software applications, manufactured by Broadlook Technologies, are provided for one year. After first year, Owner/Operator may pay \$1,500 annually if they wish to continue using Broadlook Research Package.

1. Eclipse - Research software application that captures online data from lists, directories.
2. Contact Magnet – software that captures contacts from emails, web pages, documents, spreadsheets and easily exports them to Human Capital Manager.
3. News Pulse – Desktop application that delivers industry specific competitive intelligence from news sources.
4. Content Hound – Publishes news and information to Owner/Operator's website and newsletter.

If Owner/Operator does not pay the \$1,500 annual fee to Broadlook Technologies to renew the Broadlook Research Package, the Owner/Operator's Broadlook Research Package will be deactivated by them.

Terms and Conditions of Payment
